Please forward this newsletter to all your friends and associates who might be interested!

In This Issue:

[1\)... Editor's Greeting](#)

[2\)... Best New Free Microsoft Office Training & Tutorial Sites](#)

[3\)... The Best New Free Training Sites for Flash, Photoshop, Dreamweaver,](#)

[FrontPage, & other Adobe / Macromedia Applications](#)

[4\)... Best New Free Web Development Training Sites](#)

[5\)... Best New Free Windows, Linux, Hardware & Computer Training](#)

[6\)... Software, Office and Computer Sites Worth Mentioning](#)

[7\)... Question of the Month about Software Training](#)

[8\)... Please Support Our Computer Training Mission](#)

1) Editor's Greeting:

Hello everyone, and welcome to our new subscribers!

This issue marks our 15th monthly Newsletter for EducationOnlineForComputers.com, giving you the most current Free online Software Training and Tutorial Resources that we have recently discovered and researched. This newsletter is free to anyone subscribing ([instructions](#) at bottom, no username/password is needed). To access our member site, however, you do need a user name and password - registering as a member of EducationOnlineForComputers.com costs only \$14 for two months, for more information please see [Become a Member of EducationOnlineForComputers.com](#).

My desire is that these free resources will help you with your computer education and training and are tools to advance your career. Our main mission is the training of those less fortunate who are seeking to become computer literate, from a user's perspective.

By means of this email newsletter, you have knowledge of and access to these sites before our web site visitors do. The best of these resources will be added to our Member Training pages and the remainder to our Free Training pages.

***** Current Issue *****

In this issue we are featuring a total of 34 Software and Computer training, learning and

tutorial web sites, with a total of 143 tutorial courses linked. It features many free Microsoft Office training tutorials for your learning profit and enjoyment. I apologize for the delay in getting this newsletter sent out.

For your convenience, this newsletter is also available to subscribers in HTML format at this special url: http://www.educationonlineforcomputers.com/current_news.html

If you are looking for free technical or programming training, please visit our sister site: <http://www.intelligentedu.com>. Also, please check out our new free computer training search site at <http://www.edcomp.com>.

I wish you the best with your computer studies and learning.

Warm Regards,

Scott Turton Newsletter and Web Site Editor

scott_turton@EducationOnlineForComputers.com

Few Steps Ball Tutorial:

<http://geda-online.com/tutorials/fewsteppearl/>

12 Photoshop Tutorials from Gograph.com:

<http://www1.gograph.com/..photoshopV6.cfm>

These tutorials cover the following effects: ice, blood, glow, flame and stone. Also covered are: Pic-in-Text, Theme Buttons, Channel Project, Retouching photos, Quick mask, Patterns, and Wooden frames. Also, here is a Photoshop Elements tutorial:

<http://www.sresd.k12.mi.us/tis/training/PhotoShopElements.pdf>.

17 Flash Tutorials from Gograph.com:

<http://www.gograph.com/...flashV5.cfm>:

These Flash tutorials teach you how to use flash with the following: Move & Fade, Fade & Change, Stretch & Fade, Zoom & Fade, Swing, Shape hints, Motion Guide, Color Animation, Shape tweens, Easing, Alpha, Frames, Clock, Onion skin, and Wave.

Flash Tutorials from Echoecho.com:

<http://www.echoecho.com/flash.htm>

Flash Basics:

<http://www.echoecho.com/flashbasics.htm>

What is shockwave Flash? Why is it often smarter than applets or GIF's?
What do I need to be able to create my own flash movies? Where should I start?

Flash Drawing:

<http://www.echoecho.com/flashdrawing.htm>

Learn to create Draw with Flash. This tutorial explains the Flash toolbox, how to draw basic lines and shapes.

Flash Buttons:

<http://www.echoecho.com/flashbuttons.htm>

Learn to create Flash buttons. This tutorial explains both simple buttons and

more advanced "tell target" buttons.

Flash Tweenings:

<http://www.echoecho.com/flashtweenings.htm>

Learn to change objects between two keyframes. Use the technique to move objects across the screen, change objects from one to another or simply to give an object a graduated color change.

Flash and JavaScript:

<http://www.echoecho.com/flashjavascript.htm>

This tutorial is for advanced users only. It will teach you to build a "javascript bridge" allowing Flash and Javascript to communicate.

FLA Archive:

<http://www.echoecho.com/flasharchive.htm>

Browse through our collection of Flash movies, when you find something you like just download the source file and open it in your Flash program to see how the different effects are created.

Introduction to Flash MX Design:

<http://www.allsyntax.com/tutorials/view.php?id=7&entire=1>

This tutorial covers Flash design.

Floating Flash:

<http://www.allsyntax.com/tutorials/view.php?id=13&entire=1>

This tutorial teaches you how to manipulate your flash movie so that It will float over your webpage.

4) The Best New Free Web Development Training Sites

Web Development Tutorials from Elated.com:

<http://www.elated.com/tutorials/>

Style Tutorials:

<http://www.elated.com/tutorials/authoring/style/>

Make your site stand out from the crowd with these tips from our style guru.

HTML:

<http://www.elated.com/tutorials/authoring/html/>

How to write web pages using HyperText Markup Language, from beginner's lessons to more advanced tutorials.

CSS:

<http://www.elated.com/tutorials/authoring/css/>

Using Style Sheets to make your web building faster and easier.

JavaScript:

<http://www.elated.com/tutorials/programming/javascript/>

An introduction to the most popular browser scripting language, and some clever tips & tricks.

Perl and CGI Scripting:

http://www.elated.com/tutorials/programming/perl_cgi/

Learn the Perl programming language and discover how to write CGI scripts such as form mailers, guestbooks and dynamic content scripts.

ASP:

<http://www.elated.com/tutorials/programming/asp/>

These tutorials take a look at the basics of programming Active Server Pages. This server-side technology, like CGI, lets you produce dynamic web pages such as forms and database-driven web sites.

General Graphics Tutorials:

<http://www.elated.com/tutorials/graphics/general/>

The basics of working with images on the Web.

Video Viewlet Tutorials from Mistupid.com:

HTML Programming:

<http://mistupid.com/tutorials/html/index.htm>

Dial-Up Networking:

<http://mistupid.com/technical/dialup/index.htm>

Selling on eBay:

<http://mistupid.com/tutorials/ebay/index.htm>

Site Design Made Simple:

<http://www.allsyntax.com/tutorials/view.php?id=8&entire=1>

This tutorial teaches you how to build a simple interface by using PHP to assemble many html files in to one interface. This method of design will split the code in to manageable sections and allows you to modify one file, and have the effects be instantly visible to every file that utilizes that file.

Learning JavaScript Basics:

<http://www.allsyntax.com/tutorials/view.php?id=18&entire=1>

This tutorial shows you how to get started with scripting in JavaScript to create better web pages.

Internet Security Tutorials:

http://www.allsyntax.com/tutorials/cat_list.php?type=Security

Computer Attacks:

<http://www.allsyntax.com/tutorials/view.php?id=9&entire=1>

Anonymity via Proxy:

6) Software, Office and Computer Sites and Downloads Worth Mentioning

UnTools for Access 2000 1.00.3:

<http://www.download.com/3000-2065-8833530.html>

A 100% Free Microsoft Access Add-In with 7 tools that help you explore, repair, and improve your data structures and data. UnClear lets you examine frequency distributions of values in a field, and replace nulls and empty strings; UnField creates lookup and translation tables; UnPivot rotates single and multiframe repeating groups; UnList separates and rotates multi-valued data into an itemized list; UnMatch compares matched and unmatched values in two fields along with their record counts; UnCode separates numbers from characters in a field; and UnDaTe makes a real datetime field from text date and time strings.

TweakOL:

<http://mcdev.com/programs.php?page=TweakOL>

TweakOL is a great, free tool for Outlook users, letting you change many hidden settings

in Outlook 2002 with only the click of a button, including:

- Always show BCC field
 - Minimize to the Windows system tray
 - Dis/enable MSN Messenger
 - Dis/enable Attachment Security
 - Dis/enable HTML in received messages (PlainText only)
 - Dis/enable Logging details to a file
 - 'Icon on desktop' restores/removes the 'special function' Outlook icon
-

VCatch:

<http://www.vcatch.com/home.html>

VCatch is a Free program to check incoming mail and files for viruses. The virus list is automatically updated.

MailCleaner:

<http://www.mailcleaner.com/main.htm>

Free software to detect and remove known viruses sent via e-mail messages. The virus list is automatically updated. (supported by advertising)

7) Question of the Month about Software Training:

Each month Scott Turton will answer a current or important question that we have received about computer and software training.

August 2004 Question:

How do I find free Microsoft Add-ins?

Answer:

You can look at the results of this google search to start:

<http://www.google.com/search?hl=en&ie=UTF-8&q=Office+add-ins+free&btnG=Google+Search>

Also, our new free computer training search engine, <http://www.edcomp.com>, has some good results for Office Add-ins: <http://www.edcomp.com/results/office-add-ins.html>

I hope this helps you.

Scott Turton

*****[EducationOnlineForComputers.com's Member Site](#)*****

Our Members' Site contains the web's best computer software training resources and tutorials. This content is individually linked and presented in a way to expedite and facilitate your software and computer learning experience. We have done all the web research and presentation work for you so you can concentrate solely on your computer training.

EducationOnlineForComputers.com Member Site FAQ Answers:

1. All of the web sites and pages in our members site are not in the free section of our web site. The member site training is more detailed and the best available. The online training resources in our members' site are linked and laid out in a much more detailed fashion than those in the free section. This will save you time in finding all the best free training on the web.
2. You can choose to pay using either Paypal or 2Checkout. If paying pay check and you live in the U.S., please select 2Checkout.
3. You have a choice to select the non-recurring or recurring method of payment. If you select non-recurring, when your membership period expires, you will not be automatically charged another fee on your credit card or check.
4. The total price to join our member's site is only \$14 total for 2 months, \$24 for 4 months, \$32 for 6 months, or \$56 for a whole year. The funds generated will assist us to help all those seeking software application education training. Here's the link to see what's available on our member's site and to sign up: <http://tinyurl.com/7ien>
