1) Editor's Greeting:

Hello everyone, and welcome to our new subscribers!

This is our third monthly Newsletter for our new site, EducationOnlineForComputers.com, giving you the most current Free online Software Training and Tutorial Resources that we have recently discovered and researched. This newsletter is free to anyone subscribing (instructions at bottom, no username/password is needed). To access our member site, however, you do need a user name and password - registering as a member of EducationOnlineForComputers.com costs only \$14 for two months, for more information please see below 'Become a Member of EducationOnlineForComputers.com'.

My desire is that these free resources will help you with your computer education and training and are tools to advance your career. Our main mission is the training of those less fortunate who are seeking to become computer literate, from a user's perspective.

This issue describes a total of 24 Software and Computer training, learning and tutorial web sites, with a total of 78 tutorial courses linked. By means of this email newsletter, you have knowledge of and access to these sites before our web site visitors do. The best of these resources will be added to our Member Training pages and the remainder to our Free Training pages.

For your convenience, this newsletter is also available to subscribers in HTML format at this special url: http://www.educationonlineforcomputers.com/current_news.html

If you are looking for free technical or programming training, please visit our sister site:
<http://www.intelligentedu.com>.

I wish you the best with your computer studies and learning.

Warm Regards,
Scott Turton Newsletter and Web Site Editor
